

# Standard Single Tube Ribbon (SST-Ribbon) Cables, 12- 216 Fibers

# SIECOR<sup>®</sup>

## Features / Benefits

- **Corning fiber for unsurpassed optical and mechanical performance**
- **SST-Ribbon cables provide up to 216 fibers in a rugged, compact design**
- **12-fiber ribbons with readily identifiable ribbon IDs and fiber colors**
- **Easily accessible individual fibers**
- **Precise fiber and ribbon geometries result in excellent mass-splicing yields**
- **Waterblocking performance using craft-friendly swellable polymer technology**
- **Compatible with standard ribbon cable procedures and hardware**
